

MARJORIE'S HOUSE

We haven't moved them yet, these are actually Marjorie's House Citizens-in-Waiting.

Kathi is determined to move in this Sunday.

We should be able to manage that as soon as we install two pressure water pumps, the stove, the washer, the dryer, three water heaters , hook up water and fixtures in the kitchen there are other things that still need to be done, but Mr Molek and Mr L. Tembo can finish those with kids surrounding them up to their knees.

All these kids in Marjorie's house are HIV positive, have TB or both.

Kurt is sponsored by Hamilton Hill.
We have his older brother Choolwe in Kelly's House.
The 9 month old guy is a real cutie.

Rebecca Cauley (sp?) sponsors Dow.
Dow is 7 months old and . . .
a real cutie.

Seth is a real cutie (these varied descriptions come from Kathi) He is always smiling.
Micah Bayles sponsors Seth.
Seth is 7 months old

Jack is sponsored by Jack and Jerry McNutt
Jack was abandoned – just left in the bushes. Lots of local people want to adopt him, even though he is HIV positive.
Jack is a rea (you fill in the blank)
Jack is one year old

Lindsey Turk provides Bethany's financial support.
She is a real go-getter. Crawling, beginning to walk, getting into things.
What else would expect from a one year old zoomer?

Mary, is 14 months old, and is supported by Heather Long
She has been sick a lot, though she is doing better now. Some of these babies take a while to get used to the Anti Retroviral medicines.

Thomas is three months old, sponsored by Debbie Parrott
Thomas is one of those who is both HIV positive and being treated for TB. That's a lot to put on a little guy. He is struggling, a very sick little boy.

Lydia
Lindsey Bell sponsors this little 11 month old lady.
Lydia is always quick to smile.

Janice Bingham sponsors 11 month old Peter.
Since his cot is on the end of the row, it is fun to tickle him when you walk in. This gets him to laughing.

Dorsi is a twin to Kim. Dorsi has had a lot of problems. She is much smaller than Kim. She is just now starting to sit up on her own even though she is 18 months old.
Dorsi's sponsors are Caitlin Curl and Kinsey Davis – HIZ students from last year.

Kim is a twin to Dorsi, and her sponsor is also a HIZ student from last year, Sarah Borgelt
Kim is walking, a much happier baby than Dorsi.
Dorsi and Kim are 16 months old.

Daisy is sponsored by Ray and Char Wohlever.

She is a rambunctious, 17 month old rascal. Always laughing and teasing. She seems to be too healthy for an HIV positive kid, so we hope when we check her out next year she will test negative.

William – 2 years old.

Roy says he is the cutest one of the whole bunch, with those sad little eyes and drooly mouth.

He is not positive, just being treated for TB. We hope when his treatment finishes we can move him to Kelly's house.

Jack and Jerry McNutt are his sponsors.

Christine is just soooooooooo sweeeeeeeet.

She is tiny for 16 months, so we have nicknamed her Teeny.

Phil and Gail Tanton support Christine.

Sam is a quiet little fellow. Usually a smiley face. He is 13 months old.
His sponsors are CL and Pat Cox

Lee and Linny are twins. They are not positive, just being treated for TB.
So we hope they will move to Kelly's house at the end of their treatment.
Charles and Patty Ganus sponsor this pair. Lee is a boy. He is having a difficult time adjusting to the loss of his mother.

Linny and her twin Lee, above, are almost a year old. She seems to have adjusted well. Happy most of the time.
Lee and Linny are 11 months old.

Rachel, 5 months old, is sponsored by St. Catharine's Church in Ontario. Even though she is positive, but seems to be doing okay.

Leah Williams sponsors Cintia, ten months old. This little girl is the jolliest one in the whole house. Any time you just look at her she cracks up.

Scott is an 11 month old rascal and a real tease. He does not know how to walk. He *RUNS EVERYWHERE*. His sponsor is Deidre Hulvey
