

YET ANOTHER MARJORJE'S HOUSE REPORT

Will we ever get there?
Sometimes I wonder!!!!

L Tembo should finish installing kitchen cabinets in a couple more days.

L. Tembo has made most of the furniture in the orphan houses. Tembo is a common name, more common than Smith in America. People here tease Tembos, Phiris and Bandas, complaining that they have a name shortage. You have to add an initial or two to identify which Tembo. "Mr Tembo" is just not precise enough.

Masons have the pumphouse almost ready for its roof.

Water tanks are already installed, waiting for pressure pumps.

Someday soon!!!
