

David Burks, President of Harding University, is here in Zambia. He's visiting Harding in Zambia (HIZ) students, as well as some of the local "wildlife". Here he bonds with Peter, one of our HIV-positive babies.

David and Leah Burks with Peter
David is the third Harding President to visit Namwianga Mission.

Harding and mission work in Zambia have links right back to Odessa Missouri and Harper Kansas; where Bensons, Sears, Shorts and Merritts all attended school and built friendships that stretched across oceans.

Today we moved 21 HIV positive and TB babies from Eleanor's House to Marjorie's House. The Burks, Harding students and teachers, and others, came to share the moment and bless the new house.

Quietly presiding, teary-eyed, Cecelia Sifwiyo was sad/glad to see so many of “her” kids move out!

21 new residents of Marjorie’s House, and friends.
