Orphan report: Haven 1, Haven 2 and Eric's House

ORPHAN HOMES REPORT

Haven 1 is now called Eleanor's House, in memory of Eleanor Mann. Most of the babies in Eleanor's House are tiny babies from just a few days old to two years.

Haven 2 has become Kelly's House, in memory of Kelly Hamby. Most children here are two-year old toddlers.

And then there's Eric's House, in memory of Eric Rickner, with kids from 6 to 22 years old.

David and Moshe

Moshe is one of the new tenants at Kelly's House. His father visits regularly, and we expect him to be going to his family in a few months. If he adjusts well to his home emotionally and health-wise--well, that is our goal. We'll sure miss the little character. He has an extra-appealing personality.

David has lived with us since he was an infant. He's now taking a business course in college and we are expecting him to find a job soon after that. As he and other older ones move out, younger ones can move in.

We have had a hectic year this 2007 with the death of Kathi's father and Jason's wedding. Our records are rusty and need some polishing up. Please check for your name to see that we have listed you correctly. We have had many go home and some deaths, and I am sure we have not done a good job keeping all of you informed.

Please be sure all the information is correct so we can establish where we are.

1. Are you listed with the right child? When a child goes home to its relatives we move sponsors to new babies. I am sure we have not kept you well informed about these changes, so if you have a strange name by yours, that is what has happened.
2. Do you want a recent picture of your child or children? Let us know!
3. Are you sending a gift but not listed? Send a note scolding us and we will straighten it up.
4. Have you stopped sponsoring children but we still have you listed? Let us know!
5. More than 20 of over 70 of our children have NO SPONSOR. If you would like to claim a baby or an older child, let us know!

If you are still sending a gift for a child that has left for home or who had died, we need to change that!

When a child goes home we usually maintain the sponsorship a few months to be sure the transfer is permanent. We have had to bring children back twice because the relatives were not keeping them healthy and well-fed. Once we are confident that the child is doing well, then we move the sponsorship to another child.
