Teachers needed!

Dear friends,

One of my coworkers in Uganda just wrote this in his prayer update. Would you also pray about it and let me know if God opens any doors for answering this need?

"We urgently need two or three more teachers in January (yes, just over two months from now) to help in the team school that we operate for our children. We had actually wished for an additional teacher for the current school term, and are "scraping by" with a lot of part-time help from people who have other full-time roles on the team. In January we expect to add seven more students and four more grade levels, with families returning from furlough or joining the team for the first time. Even if someone could come for only five months and teach for the spring semester, that would be a tremendous help. Please pray with us about this, and feel free to ask if you would like more information."

Laura and I will be back in Uganda in January, and our three kids will all be in the school (and in need of teachers).

Thanks!

Phillip
